Demonstrations

Free displays, demonstrations and information.

Everson Garden Club

COMMUNITY GARDEN UPDATE

A gardening group named the Everson Food Bank Garden Volunteers will continue to keep part of the garden space active at Ramstead Park while it remains closed to the public. We started planting mid-May from seeds we started in January and have a good start on the vegetables. There are volunteer opportunities for any and all who would like to participate in the Everson Food Bank Garden this year. We meet on Wednesdays for 2 hours, usually from 5-7. Times can vary depending on the weather. If you like to garden this is a lovely way to give back to those in need. It is fun to work in a group and it is also a good time to learn things about gardening from our experts on the team. If you are interested in joining this group or giving a donation for our work, please call Ronna at 360-305-2936 or Peggy at 360-318-5063. We want to give a big thanks to Jerry Vandalen for providing manure to the garden again this year! This gift adds nutrients to the soil, and, as a result, we produced many fine vegetables last year.

Parks & Recreation Update: Everson City Park

The new toddler playground equipment has been fully installed and is open to the public!

Paid for by the 2022 Everson Summer Festival and Everson City Park Fund.

A new pickleball court is set up within the tennis court!

Police Chief's Corner:

As we enter the summer season and warm weather, we often leave doors and windows open during the day and evening. If that sounds like you, remember to place something in the window track, so you can have it partially open, but still secure it. The same can be done with sliding glass doors if you have them. When you are not at home or in the evening hours, keep exterior doors to your residence locked. Also, when you are not at home; leave a light, radio or TV on inside the residence. A radio or TV on inside the residence gives the appearance that someone is home. At night, you should leave an outside porch or patio light on. It is recommended that you park your vehicle in a well lit or secure area, and do not leave valuables in the vehicle.

If you have any further questions about safety and security, feel free to contact the Everson Police Department.

AND PLEASE REMEMBER:

To report criminal or suspicious activity, call 911

Sincerely,
Chief MacPhee

EVERSON CITY PARK

201 LINCOLN ST EVERSON, WA 98247

For more information or to request a vendor application please contact the market manager:
Jesse Johnson
Email: envalleyfarmersmarket@gmail.com

Northern giant hornet (*Vespa mandarinia*) is the world's largest species of hornet.

WSDA is asking for the public's help to watch for and report suspected hornet sightings.

They are predators of honeybees and can destroy a hive in a matter of hours.

They also attack other insects. While they do not generally attack people or pets, they can when threatened. If it becomes established, this hornet will have negative impacts on the environment, economy, and public health of Washington State.

Northern giant hornet identification

- Usually 1.5 - 2 inches in length

- Large orange head with prominent eyes

- Black and orange/yellow striped abdomen

If you see a northern giant hornet, safely take a picture if possible and please report it!

Report online at agr.wa.gov/hornets

Email hornets@agr.wa.gov
